## 25<sup>th</sup> The International Exhibition of Building Building Materials and Civil Engineering

Dear partner,

We are pleased to extend an invitation to you to attend the 25<sup>th</sup> edition of the international exhibition for Building, Building Materials and civil engineering 'BATIMATEC', which will be held from from 07 to 11 May 2023 at the Exhibition Center of SAFEX at Pins Maritimes, Algiers.

A quarter of a century marked by renewal and diversity which identifies the strong points of the BATIMATEC, a longitude which confirms beyond doubt the great importance of the event and its pole position wich in continental scale.

The Event is the largest professional meeting, revealing the current trends in the construction and public works sectors, whether on the ecological, sustainable and modern aspect. All sectors of Building, Building Materials and Public Works will be represented there, a complete and detailed exhibition; raw material, engineering, application process and many other solutions will be unveiled to respond to the dynamism of the local market.

The exhibition reached during the 2022 edition an acceptable rate in terms of participation with no less than 750 exhibitors including 500 national companies and 250 foreign companies from 15 countries fulfill about 22,000 sqm, a decline explained by the global economic situation. For this twenty-fifth Edition, our main objective is to mark this event with a great success and to consolidate the position of BATIMATEC as much as the first specialized exhibition held in Africa.

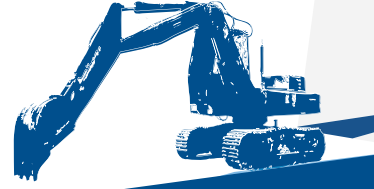

The organizers of the exhibition, SAFEX and BATIMATEC EXPO as well as all their partners are already committed to ensure greater success for this major event, which remains the most important.

We will be delighted to welcome you to this next edition.  
Welcome !
